

# Vote August 28th

## Committed To Fiscal Responsibility

Dear Friend,

We have many new and exciting projects that will improve our great city of Gardendale! We exchanged the old Anderson Boat building for the former Food World property. We exchanged the aged City Hall for the former Caulfield Square property. Both exchanges created a net income of \$300,000 for Gardendale!

Now we are developing the new Gardendale City Center. The City Center will be the new cornerstone for our community. We will be coupling city government with private enterprise creating additional revenue for our city budget and bringing new businesses and jobs to Gardendale. We have already locked in Buffalo Wild Wings to be an anchor business in the new City Center and many new stores and restaurants to come.

I am proud of the fiscal responsibility the City Council has maintained during the last 4 years even turning a deficit into a surplus during tough economic times. There are great things on the horizon for Gardendale.

I ask for your vote on August 28<sup>th</sup> to continue Gardendale on this positive course.

Sincerely,

*Alvin Currington*
